## Fonds- und Aktien-Börse.

Berlin, 18. September. Die Börse eröffnete heute in schwächerer Haltung und mit zumeist etwas niedrigeren Coursen auf spekulativem Gebiet. Das Angebot trat fast überall überwiegend auf, weil die Spekulation in Folge der Versteifung des Geldstandes ihre Hausse-Engagements aufzulösen bestrebt ist. Die von den fremden Börsenplätzen vorliegenden Tendenzmeldungen lauteten

gleichfalls wenig günstig und boten geschäftliche Anregung kaum dar. Das Geschäft gewann dann auch im Allgemeinen keine grosse Ausdehnung, gestaltete sich aber für einzelne Ultimopapiere ziemlich belangreich. Im späteren Verlaufe des Verkehrs gewann die Haltung an Festigkeit. — Der Kapitalmarkt zeigte weniger feste Haltung für heimische solide Anlagen; 4proz. Reichsanleihe fester; auch fremde, festen Zins tragende Papiere waren schwach behauptet und ruhig; Russische Anleihen und Noten sowie Ungarische 4proz. Goldrente abgeschwächt. — Der Privatskont wurde mit 3 1/2 Prozent notirt, Ultimogeld ca. 5 1/2 Prozent. Auf internationalem Gebiet waren österreichische Kreditaktien zu schwächeren und schwankenden Coursen mässig belebt; Franzosen nach matterer Eröffnung befestigt; Dux-Bodenbacher, Gotthardbahn, Elbethalbahn zu matten Notierungen ziemlich lebhaft, andere ausländische Bahnen schwach und ruhig. — Inländische Eisenbahnaktien wenig verändert; Lübeck-Büchen schwächer; Ostpreussische Südbahn fest. Bankaktien in den Kassaverthen ziemlich behauptet, aber ruhig; die spekulativen Devisen schwächer und schwankend, namentlich Darmstädter Bank niedriger. — Industriepapiere durch Realisationen gedrückt und nur vereinzelt lebhafter; Montanwerthe stärker angeboten und theilweise erheblich nachgebend.

## Produkten-Börse.

Berlin, 18. September. Wetter: Schön. Wind: NO.  
Wir hatten heute wieder einen für die meisten Artikel wenig belebten Markt, so dass die Haltung vorherrschend fest genannt werden konnte.  
Loco-Weizen behauptet. Für Termine bestand ziemlich gute Deckungsfrage, welche etwas höhere Preise bewilligte, wodurch alle Sichten am Schlusse eine Besserung von 1/2—3/4 Mark aufzuweisen hatten. Nahe Lieferung war dabei beliebter als an den letzten Tagen.  
Loco-Roggen, nur in feiner Waare beachtet, ging mässig um. Für Termine entwickelten Platzmühlen und Commissionäre ziemlich gute Kaufkraft, welche anscheinend mit den aus Schlesien vorliegenden Nachrichten über die Kartoffelernte im Zusammenhange stand; man zahlte denn auch für alle Sichten höhere Preise, wodurch mehr Angebot in den Markt kam, und dadurch geschlossen Course kaum noch höher als gestern. Allem Anschein nach hat man heute auf den im gestrigen Bericht erwähnten Taganrog-Dampfer Verkäufe vollzogen.  
Loco-Hafer fest. Termine ebenfalls fest und etwas besser bezahlt. Roggenmehl 5 Pfg. theurer. Mais unverändert. Rübsöl liess sich in die jüngsten Termen bei knappem Angebot neuerdings höher verwerthen, während Frühjahr unbeachtet und unverändert blieb.  
Spiritus bei stillem Verkehr schwach preishaltend. Nur April-Mai hat sich behauptet.
